MONTANA WATER COURT, YELLOWSTONE DIVISION
YELLOWSTONE RIVER ABOVE AND INCLUDING BRIDGER CREEK BASIN
BASIN 43B
PRELIMINARY DECREE

CLAIMANT: True Western Sky LLC

CASE 43B-0720-R-2022

43B 179987-00

NOTICE OF FILING OF MASTER'S REPORT

This Master's Report was filed with the Montana Water Court on the above stamped date. Please review this report carefully.

You may file a written objection to this Master's Report within **10 days** of the stamped date if you disagree or find errors with the Master's findings of fact, conclusion of law, or recommendations. Rule 23, W.R.Adj.R. If the Master's Report was mailed to you, the Montana Rules of Civil Procedure allow an additional 3 days to be added to the 10-day objection period. Rule 6(d), M.R.Civ.P. If you file an objection, you must mail a copy of the objection to all parties on the service list found at the end of the Master's Report. The original objection and a certificate of mailing to all parties on the service list must be filed with the Water Court.

If you do not file a timely objection, the Water Court will conclude that you agree with the content of this Master's Report.

MASTER'S REPORT

This claim appeared in the Preliminary Decree with the following remarks:

THE CLAIMED POINT OF DIVERSION IS IN QUESTION. THE LOCATION OF THE HEADGATE CANNOT BE IDENTIFIED FROM AVAILABLE DATA.

THE SOURCE TYPE APPEARS TO BE SURFACE WATER.

The issue remarks were not addressed through the objection process. The Water Court is required to resolve the issues raised by each issue remark. Section 85-2-248, MCA.

Under Section 85-2-248(3), MCA, information in the claim file or other information obtained by the Court can be reviewed to determine if it provides a sufficient basis to resolve the issue raised by a remark and the Court can provide the claimant an opportunity to file additional information or evidence. On January 18, 2023 the claimant filed its Notice Of Filing Documentation To Resolve Issue Remarks ["Documentation"] . The settlement is viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

"All issue remarks to claims that are not resolved through the filing of an objection as provided in 85-2-233 must be resolved as provided in this section." Section 85-2-248(2), MCA.

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDINGS OF FACT

1. The Preliminary Decree states that the source type is GROUNDWATER. The Documentation states that there is surface water collected in the ditch but the primary source is the developed spring. The source type should not be changed. The source type issue remark should be removed as addressed and resolved.

2. The Preliminary Decree states that the means of diversion is HEADGATE. The Documentation states that there is no headgate, that the water from the spring flows directly into the ditch. The means of diversion should be DITCH. The point of diversion/means of diversion issue remark should be removed as addressed and resolved.

CONCLUSION OF LAW

The information provided by the claimant is sufficient to resolve the issue remarks without evidentiary hearing. Sections 85-2-248(3) and (11), MCA.

RECOMMENDATIONS

Based upon the above Findings of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Findings of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
